Types of scholarship

Indian education offers a variety of scholarships from government funded international scholarships to institute-funded international scholarships and university-funded international scholarships. These scholarships are divided into full and partial Scholarship.

Partial scholarships

These types of scholarships ranges from small, one-off payments to covering your whole tuition fees. They do not usually include any support for living costs or your travel expenses. However, some partial scholarships may cover only living expenses and tuition fees may be borne by students themselves.

Full scholarship

Is an award that covers all expenses related with college. This includes tuition, books, fees, room board and possibly even living costs. These types of scholarships are scarce and they are only for those with higher grades.

Get started on your application with Tenpaten

Tenpaten is an education consulting company. We work with students in Africa in order to help them apply for and get into universities in india. In india we partner with universities who would host the students. We never gurantee to the students that they would get in, as that decision is not our own: however, Tenpaten offers whatever tools at its disposal to make the students achieve their dream of studying in india.

The following is a step by step process to apply to schools a broad with Tenpaten.

**choose your desired
course and university.**

Fill the form

Submit
